ASA Electronics® Brings iN-Command with Global Connect to Keystone Cougar

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics continues the evolution of iN-Command Control Systems with Global Connect™ technology. iN-Command with Global Connect comes standard on all 2019 Cougar models, giving RV owners more options to take control of their RV. Keystone Cougar is the first RV brand to use Global Connect technology across all models.

“Over the past 20 years, Cougar has earned the reputation as the industry leader in looks, floorplans and technology. By making iN-Command with Global Connect a Cougar standard we continue to build on this legacy and give a new generation of RV buyers more reasons to choose Cougar,” said Cougar Product Manager, Matt Christensen.

The innovative RV control system allows RV owners to control the essential motorized and monitoring functions of their RV with a state-of-the-art control panel or their smart device. The wall mount control panel is the central hub of the RV, controlling motorized slides, lights, and even the climate of the RV all in one place. These same functions and many more can be accessed and controlled remotely with the iN-Command app, available for free on Apple and Android devices.

“We’re all incredibly proud of this latest generation of iN-Command. The Global Connect feature and the ability to give RVers this unprecedented level of control is something we’ve talked about for a long time and it’s exciting to see that come to life,” said ASA RV OEM Account Manager, Cedric Waters.

With Global Connect technology, RV owners stay in control far beyond the campsite using Wi-Fi and cellular data connections. This feature allows the owner to monitor water tanks, fuel, and battery levels as well as control many functions from anywhere in the world.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.

Keystone RV Company is the largest manufacturer of fifth wheel campers and a leading manufacturer of travel trailers. Headquartered in Goshen, Indiana, with manufacturing plants in Pendleton, Oregon, Keystone brands are represented at about 1000 dealerships across the U.S. and Canada.
