

## **ASA Electronics® Brings iN-Command to Forest River Cedar Creek**

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics® is proud to announce our iN•Command Pro Plus system is now available on all 2019 Cedar Creek Champagne, Silverback and Hawthorne models. Cedar Creek’s 2019 line will debut at the Elkhart Open House at the end of September.

With iN•Command Pro Plus, RV owners will be able to take command of their entire camping experience. A sleek, seven-inch touchscreen display commander takes the place of traditional switch panels inside the RV and a free app turns any Android or iOS smart device into a fully functional remote control.

“We wanted to make sure our customers are getting the most out of their RV. We want them to have as much control as possible in the way that is the easiest for them to understand. The iN•Command system delivers in a big way,” said Craig Clair, general manager for Cedar Creek.

With the iN•Command Pro Series app, Cedar Creek owners will be able to operate motorized functions remotely, making it easier to position their slides and awnings. They will also have control of interior and exterior lighting as well as the ability to monitor their tank water, waste, fuel, and battery levels in real time right from their device.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products.
