

ASA Electronics® and Dutchmen RV Bring Premium Polk Sound to RVX

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics and Dutchmen RV are taking RV audio to the next level with the Polk Complete DSP Sound System. ASA Electronics is well-known in the marine market for their premium sound systems, and now Dutchmen has outfitted a 2019 Voltage to showcase the innovative new system at RVX.

“We wanted to do something really extraordinary for our Voltage line at RVX and bring premium audio to the RV market at the same time. We wanted to not just push the boundaries but blow the doors off the place. We heard what ASA Electronics was capable of at RVIA with their trailer and knew we had to have it,” said Josh Staley, General Manager of Dutchmen.

The Dutchmen Voltage is fully loaded with 10 high-powered speakers, three 700 watt 10.8” subwoofers, four high efficiency amplifiers, two Bluetooth-enabled stereos, and two Digital Signal Processing modules for optimized sound quality and zone control.

“Premium audio is beginning to resonate with discerning RV buyers across the toy hauler segment. Those that take to the desert for an adrenaline rush with their toys are also looking to amp things up in their haulers. The ‘sophisticated madness’ our Polk system offers, in terms of technology and total quality sound, is a huge leap for the RV industry, and we are elated Dutchmen has chosen to partner with us as we continue to lead the way,” said Cedric Waters, RV OEM Account Manager for ASA Electronics.

The Polk DSP System has been custom-tuned for the Voltage in order to deliver peak performance and recording studio quality audio at any volume. During testing, the system reached an impressive 126 decibels without ever distorting the audio or producing any interference.

The Polk Complete DSP Sound System first debuted to the marine market in Fall 2018 and can be found on Regulator Marine boats.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
