ASA Electronics® Brings iN·Command to Pacific Coachworks Fifth Wheels

FOR IMMEDIATE RELEASE

ELKHART, IN.— ASA Electronics is bringing the control and convenience of iN·Command® Control Systems to Pacific Coachworks fifth wheels. iN·Command with Global Connect™ will be available on Pacific Coachworks Blaze'n, Powerlite, Rage'n, and Sandsport fifth wheels.

“Quality, commitment and forward-thinking technology are what we strive for at Pacific Coachworks. We recognize that our customers want that technology and want to stay connected, so we are very excited to partner with ASA Electronics to bring their industry-proven iN·Command Control System to our flagship fifth wheels,” said Summer Gerdes, Pacific Coachworks’ Purchasing Manager.

Pacific Coachworks owners can take complete command of their trailer, with the ability to do everything from position motorized slide-outs to monitor water tank levels, and even turn on their A/C from their smart device with the iN·Command app for Apple and Android devices. With Global Connect™ technology, RVers will be able to control and monitor select functions of their RV from anywhere in the world, when both the RV and the smart device have a cellular or wi-fi connection.

“It’s great to see more and more of the RV industry embrace this evolution of technology. We’re very excited to add Pacific Coachworks to our growing list of iN·Command customers as we continue to push the boundaries of Smart RV connectivity,” said Jeff Gray, National OEM Sales Account Manager, RV & Trailering for ASA Electronics.

Through ASA Electronics’ partnership with Chevrolet and GMC, Pacific Coachworks owners with 2020 Silverado or Sierra heavy duty trucks will be able to control an array of iN·Command functions through the MyChevrolet and MyGMC apps. They will even be able to access these RV controls through the in-dash infotainment system of their truck using phone projection.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
