Yellowfin Yachts Offering Klipsch® Marine Sound System from ASA Electronics®

FOR IMMEDIATE RELEASE

ELKHART, IN. – Yellowfin Yachts has partnered with ASA Electronics and now offers Premium Klipsch Marine Sound on many boat models. The Klipsch Complete Marine Sound System is custom-tuned and configured for each model to provide the best audio performance possible.

The heart of the system, Bongiovi DPS Core Technology, dynamically adjusts and remasters the music in real-time, restoring it to playback the way the artist originally intended it to be heard. This ensures crystal clear studio grade audio, even with engine, wind and ambient noise.

“We’re proud to partner with an exceptional brand in Yellowfin. The systems we provide are unique. The technology and the custom tuning powered by Bongiovi DPS provides a level of attention to detail that is unmatched, and is what drives the audio experience to be the best it possibly can be in each and every boat model. Asking you to go and listen for yourself and hearing clear, loud and distortion free music with your own ears, is the only way to understand the difference,” said Matt Wood, ASA Electronics Vice President, Marine Division.

The 21 Hybrid, 34 Offshore, 36 Offshore, 39 Offshore, and 42 Offshore models will all feature this first-of-its-kind system as an audio upgrade option. Yellowfin will be exhibiting at the Miami Boat Show in booth B255 and slips 761 and 762.

Klipsch® is a trademark of Klipsch Group, Inc., registered in the U.S. and other countries. Klipsch Group, Inc. is a wholly-owned subsidiary of Vox International Corp.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977.
