ASA Electronics® Debuts New JENSEN® Stereo

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics is expanding our entertainment offerings with our first-ever cube-shaped stereo, the JENSEN JWM20 Wall Mount Stereo. The latest edition to our JENSEN product line is our smallest footprint to date and is designed to deliver more functionality in a smaller package, ideal for the RV market. This compact stereo supports up to four speakers with two independent speaker zones to give RVers more control of their audio.

The JWM20 also supports an array of listening options, including Bluetooth streaming and control as well as MP3 and WMA playback via USB. The front USB port, conveniently located next to a pass through HDMI input, make it easy to use and power your favorite external media, including Amazon Fire TV and Roku streaming sticks. The HDMI input allows audio from these devices to play through the stereo's speakers. The front USB port also supports one-amp for cell phone charging.

The newest JENSEN stereo also features 30 radio station presets and a clock with alarm and sleep timer.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
