ASA Electronics® Introduces iN·Command Touch Switch

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics is offering another level of control for their iN·Command Control System with the NCSTS9 Touch Switch. The NCSTS9 is a touch screen switch panel that can be installed virtually anywhere in the RV or travel trailer, like a bedroom or garage, to provide easier access to select iN·Command functions.

The factory-installed touch switch is wired using RV-C protocols to connect with the Body Control Module and other systems on the network. This connection ensures constant, reliable communication between the switch and the system. The NCSTS9 can be programmed to control as many as nine separate functions of the system. Control slide outs, awnings, water pump, water heater, and lights. When installed with the iN·Command NCSLED3Z Light Dimming Module, the NCSTS9 can even control light dimming.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
