ASA Electronics® Unveils Two-Way Speaker for RV Market

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics is adding to their impressive line of JENSEN audio equipment with the JWMS350 speaker. The two-way acoustical speaker was engineered to offer more options for seamless RV installation. The JWMS350 can be installed either horizontally or vertically to create a family look when paired with JENSEN’s new line of wallmount stereos.

JWMS350 speakers shown with JWM70A Wallmount Stereo (sold separately)

When installed vertically, the speaker will fit with the JWM60A for a sleek, high end look. When installed horizontally, the JWMS350 offers the same streamlined look to the JWM70A stereo. The JWMS350 is a single-hole surface mount install, making for a cohesive and unified system.

The speaker’s one piece metal grille adds to the overall high tech appearance. The stereo is finished with snap side bezels to hide mounting screws for a more polished look and feel.
