ASA Electronics® Unveils New JENSEN Marine® Stereo

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics has added a new, compact audio option for boatbuilders with the JENSEN Marine JMS4 Bluetooth Stereo. The JMS4 is feature-packed while maintaining a compact footprint to save space on board.

The newest JENSEN Marine stereo allows boaters to enjoy their music from a variety of sources, including Bluetooth-enabled devices for streaming their entire library and a USB port for MP3 and WMA playback. The JMS4 also offers an AM/FM tuner with 12AM and 12FM programable station presets and a weather band tuner. No matter what the soundtrack is for a day on the water, the JMS4 performs with four-channel amplified audio at 160 watts.

The JMS4 is engineered and tested to withstand life on deck. The stereo is water resistant with an IPX6 rating in addition to being UV and corrosion resistant. The conformal coated circuit board helps to further protect the JMS4 from the elements so boaters can enjoy their JENSEN Marine stereo for years to come.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries

since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
