ASA Electronics® Brings Klipsch® Marine Sound System to New NauticStar Boat

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics is bringing their Klipsch Complete Marine Sound System to the brand new NauticStar 32 XS Offshore, to be unveiled at the Miami Boat Show. The 32 XS Offshore boasts a fully-matched and custom tuned system with six 7-inch coaxial speakers, each delivering 200 watts of power.

With the Klipsch Complete Marine Sound System, the speakers are only the beginning. Each component of the system is installed and tuned to achieve peak performance, tailored specifically for the 32 XS Offshore. The Bongiovi DPS Core Technology is the center piece of the system. The DPS automatically adjusts and remasters music in real time for clear listening at any volume, even when the boat is in motion.

“The Bongiovi DPS technology allows the music to cut through the engine noise and the wind and the waves to let the Klipsch speakers really shine. Our customers and their dealers want the best audio possible and we’re giving them that,” said Matt Wood, ASA Electronics Vice President, Marine Division.

In addition to the 32 XS Offshore, NauticStar has outfitted the 243 DC Sport Deck with its own custom tuned Klipsch Complete Marine Sound System, offering configurations with four and six 7-inch speakers.

The 32 XS Offshore will be on display at the Miami Boat Show in booth A237 and Yamaha slip 267.

Klipsch® is a trademark of Klipsch Group, Inc., registered in the U.S. and other countries. Klipsch Group, Inc. is a wholly-owned subsidiary of Voxx International Corp.
