

## ASA Electronics® Introduces Compact JENSEN Marine® Stereo

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics is expanding our JENSEN Marine® line by thinking small, with the JMS3 Bluetooth Stereo. The 3.5-inch diameter stereo is the perfect fit for even the smallest dashboard and the clean surface mount design makes for a simple installation. The compact, self-contained design maximizes space on board without minimizing the power of the music, boasting 160 watt maximum output power.

The JMS3 gives boaters multiple listening options, offering Bluetooth streaming, AM/FM radio, weather band radio, auxiliary input, and MP3 playback via USB. The “Quick Pairing” Bluetooth button allows for instant Bluetooth pairing no matter what mode the radio is in. The simple user interface is complimented by a daylight-readable LCD display and LED backlit buttons for easy visibility at any time of day.

Like all of our JENSEN Marine products, the JMS3 has been meticulously engineered for life on the water. This stereo is waterproof with IPX6 rating and has been constructed with corrosion and UV resistant materials with additional UV resistant finishes.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products.
