ASA Electronics® Launches Klipsch Marine Website

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics has launched a brand new website for our Klipsch Marine products. The informational site, KlipschMarine.com, invites boat builders, dealers, and buyers alike to “Rock on Water” with the Klipsch Complete Marine Sound System. Born from a partnership between ASA Electronics, Klipsch Audio, and Bongiovi Acoustic Labs, we’ve created a system designed to deliver the best possible audio on any boat at all times.

“The Klipsch system was the first system to bring Bongiovi’s technology to the marine market,” said Matt Wood, Vice President of ASA Electronics’ Marine division. “It really is a show stopper and it was important to us to have a place that showcased this system.”

KlipschMarine.com tells the full story of this partnership in addition to breaking down the technical specifications of our stereo, speakers, subwoofer, and amps. All of these components work together with Bongiovi DPS (Digital Power Station) technology to optimize the sound of your music for your environment.

To ensure each component of the sound system is positioned for the best possible performance, the system must be installed at the factory level. KlipschMarine.com provides a list of boat builders currently offering the Klipsch Complete Marine Sound System.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
