Voyager®

///ADVENT®
AIR

For over 40 years, ASA Electronics® has provided the RV industry with mobile electronics made to perform in any environment. Everything from televisions and stereos to observation systems has been designed to withstand extreme conditions, including vibration, temperature swings, and moisture.

Our product line comprises stereos, speakers, and televisions from JENSEN®, observation systems from Voyager®, and rooftop air conditioners from Advent® Air. Our line of marine products from JENSEN completes our premium product offering for those who live life on the edge. Engineered at our two-million-dollar, in-house testing facility, all of our products are backed by our Hassle-Free Warranty and Dealer Bill of Rights. They are warranted to be free of defects for 12 months, and our highly trained customer and technical service departments are available to answer any questions.

ASA Electronics stands by its products every step of the way to ensure that they can handle any adventure.

iN·Command®

CONTROL SYSTEMS

iN·Command® Control Systems ushers in the next generation of campsite control, acting as your RV's central hub of operations. Control and monitor an array of systems, including slides, awnings, tank levels, and even Climate control and scheduling. iN·Command Global Connect allows you to control select functions of your RV using your smart device from anywhere in the world. Features like our innovative Unified Wiring Diagram and changeable relays allow easy maintenance at the campsite or dealership to keep your trip moving. For more information about iN·Command Control Systems, please visit www.in-command.net.

GLOBAL CONNECT®

Control select functions of your RV from anywhere in the world using a smart device with Wi-Fi or cellular data connection.

CLIMATE CONTROL

Control your heart and air conditioning, including the ability to set schedules for day and night and control roof vents.

GENERATOR

Control and monitor generator functions including auto-start and fault code reporting.

TPMS

Monitor and receive notifications regarding air pressure and temperature in each tire, receiving alerts and other information through the iN·Command app.

NCTP100

FOUR TPMS SENSOR KIT

Monitor the air pressure and temperature of up to 22 tires at once with the iN-Command® Tire Pressure Monitoring System. The waterproof sensors use Bluetooth® technology to communicate important safety information right to your smart device through the iN-Command TPMS app.

NCTP100DISPBOX

NCTP1002

TWO TPMS SENSOR KIT

Voyager®

You've never been safer with Voyager observation systems. With RVs prewired for WiSight® technology, our factory-installed, 12-volt DC socket is already connected to the existing wiring at the rear of the coach. WiSight® technology allows the camera to transmit to a wireless Voyager monitor even at high freeway speeds. Never guess your surroundings again.

» EASY INSTALLATION

» SAFETY

» OBSERVATION

WiSight® 2.0 TECHNOLOGY

WiSight® 2.0 technology digitally locks the camera to the monitor and blocks all outside signals. This eliminates interference and noise typical of analog wireless systems and delivers a sharp, vivid picture of the vehicle's surroundings to the monitor.

PREWIRED FOR *Voyager*[®]

WV5XP43

VOYAGER WIRELESS WiSIGHT 2.0, 4.3" MONITOR W/ CAMERA FOR PREWIRE SYSTEM

If this cover plate is on the back of an RV, it's prewired for Voyager!

Your vehicle does NOT have to be Prewired to install/use these systems.

Capabilities

We have worked hard to build a team with the skills necessary to handle every stage of production. Our diverse range of capabilities allows us to better serve the needs of our customers throughout the process, whether that means designing an entirely new product, customizing an existing product to fit their application, or simply answering questions in a timely manner.

Engineering

Our on-site engineering lab is equipped with a multi-million dollar testing facility where we test all our products to withstand the unique applications and environments where they will be used.

Fabrication

Our highly-skilled fabrication team is able to modify existing products and even create new products to fulfill the needs of our customers on a regular basis.

Customer Service

Our award-winning customer support team is highly knowledgeable about all our products and passionate about helping customers find quick solutions.

**ASA Electronics® is proud to offer our Hassle-Free Warranty
and exclusive Dealer Bill of Rights to accompany our top-of-the-line products.**

**All JENSEN®, Voyager®, iN•Command® Control Systems, and Advent® Air products
are backed by a unique no-hassle program that
guarantees our products will be defect-free for 12 months.**

**Customer Service:
1-800-274-1886**
